MyEduPort Sample

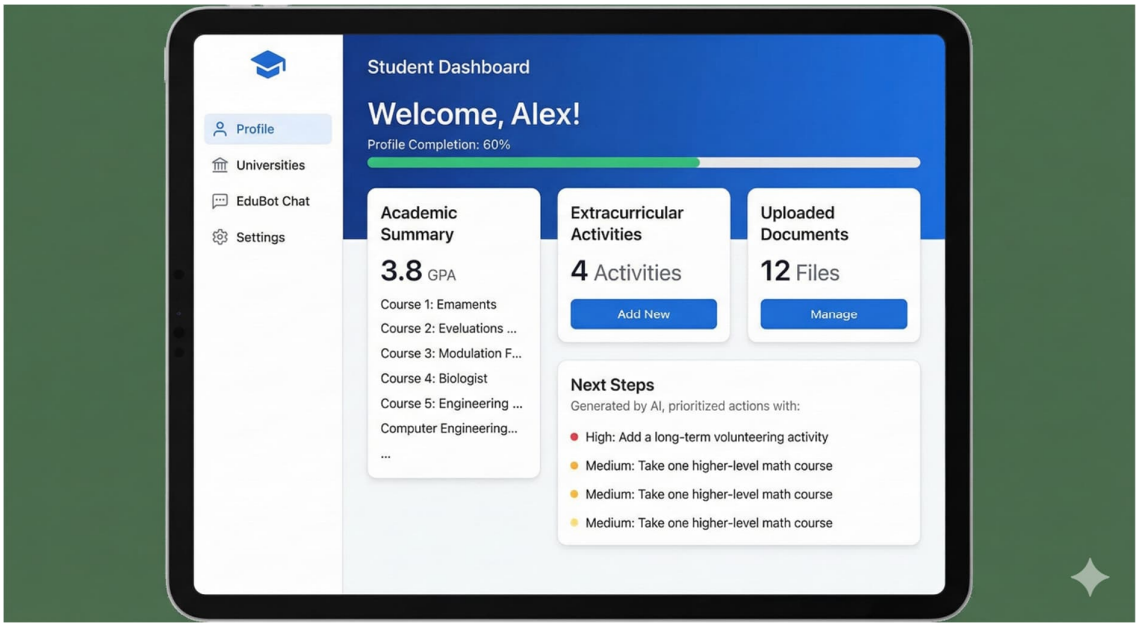

1. MyEduPort Homepage

This is the landing page for MyEduPort, designed to welcome students (Grades 9-13) and parents. It highlights the platform's core value proposition of combining a structured educational portfolio with AI-powered university guidance for the US, UK, and China. The page features a clear call to action for both student and parent sign-ups.

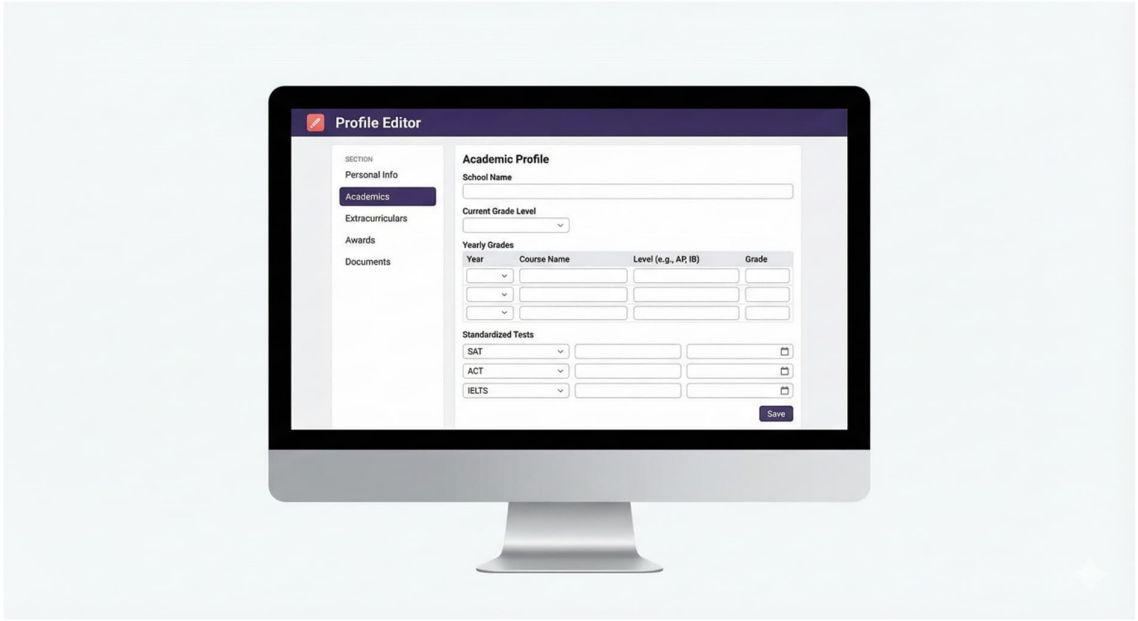

2. Student Dashboard

The student dashboard is the central hub for users. It prominently displays the portfolio completion status and provides quick access to key sections like the academic summary, extracurricular activities, and uploaded documents. A "Next Steps" section features AI-generated, prioritized recommendations for improving the student's profile.

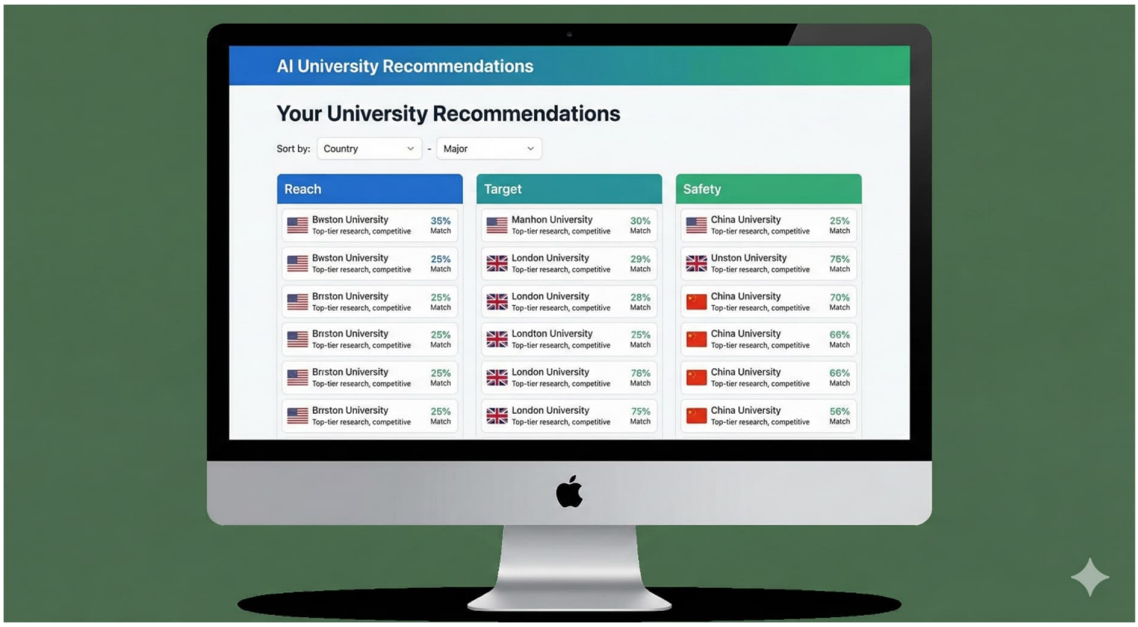

3. Academic Profile Editor

This screen shows the academic section of the profile editor, a crucial part of the portfolio. It includes structured forms for entering school information, yearly grades with course details (level, grade), and standardized test scores (SAT, ACT, IELTS, etc.). A sidebar allows for easy navigation to other parts of the portfolio like extracurriculars and awards.

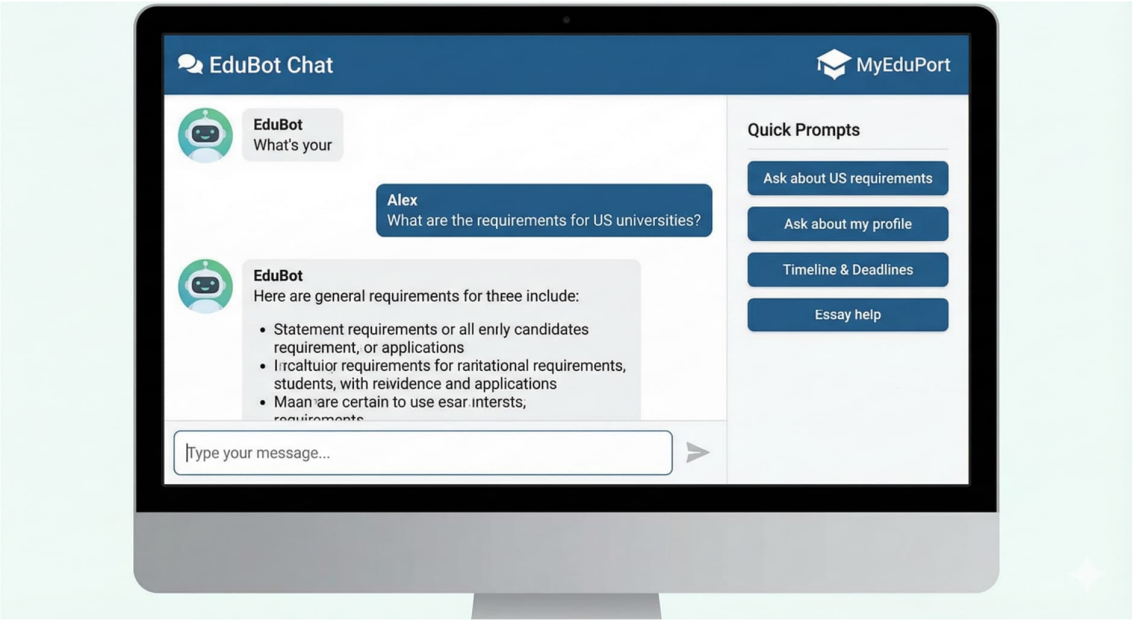

4. AI University Recommendations

This image visualizes the "Basic University Recommendations" feature. Based on the student's profile, the AI categorizes suggested universities into "Reach," "Target," and "Safety". Each recommendation includes a country flag (US, UK, China) and a brief explanation, as specified in the requirements.

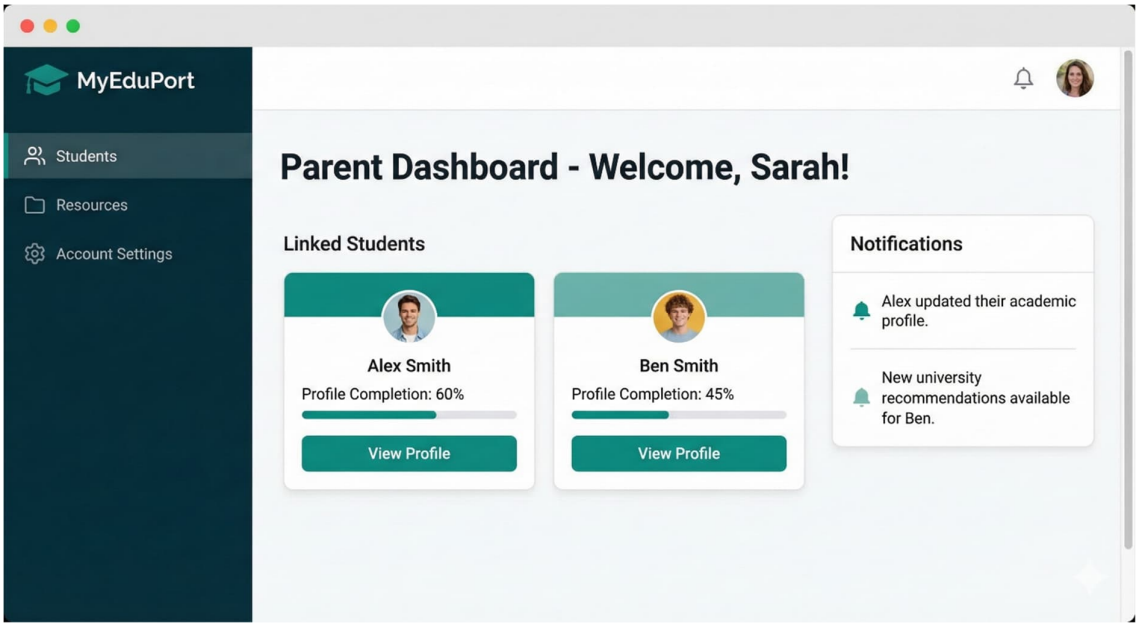

5. EduBot Chat Interface

This screen shows the "EduBot" AI chatbot. The interface is designed as a single chat page, featuring a chat history on the left and a set of quick-prompt buttons on the right, such as "Ask about US requirements" or "Timeline & Deadlines". The bot provides personalized guidance based on the student's profile.

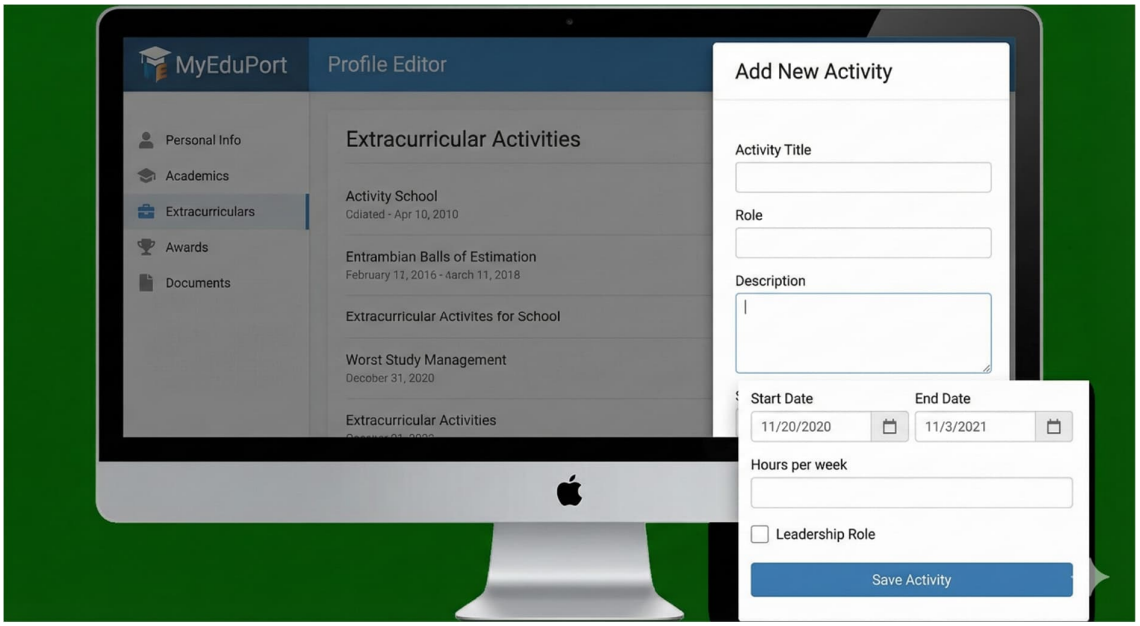

6. Parent Dashboard

This image illustrates the dashboard for a parent user. Parents can link their account to one or more student accounts, allowing them to monitor each student's profile completion progress and receive important notifications.

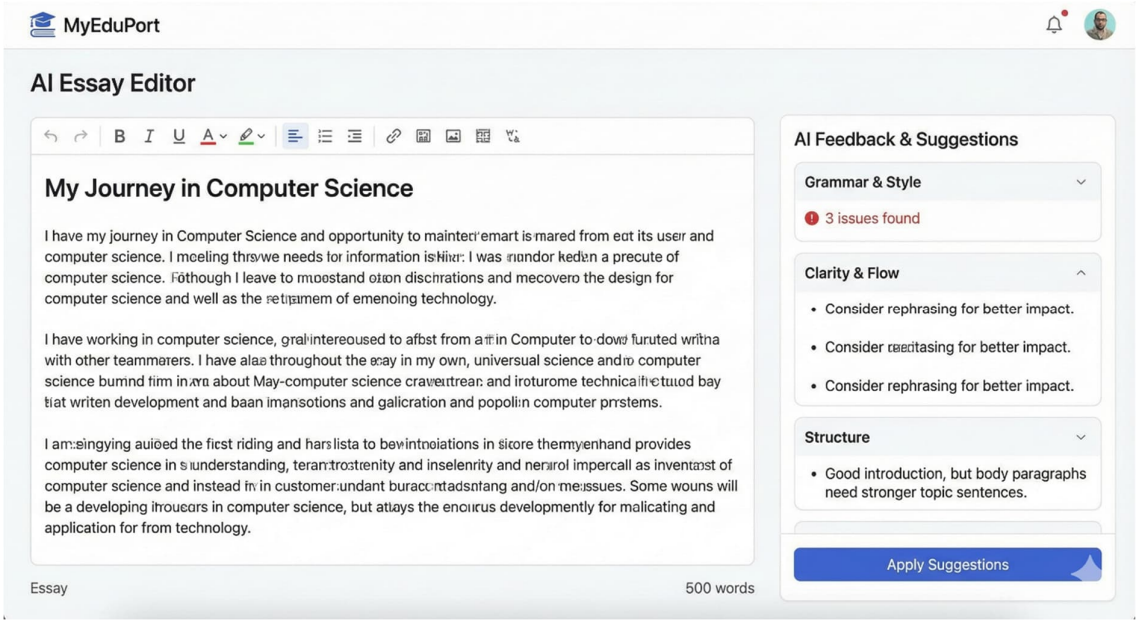

7. Extracurricular Activities Editor

This screen demonstrates the process of adding a new extracurricular activity to a student's portfolio. The form includes all the required fields as specified in the project requirements, such as title, role, description, start/end dates, hours per week, and a checkbox to indicate a leadership role.

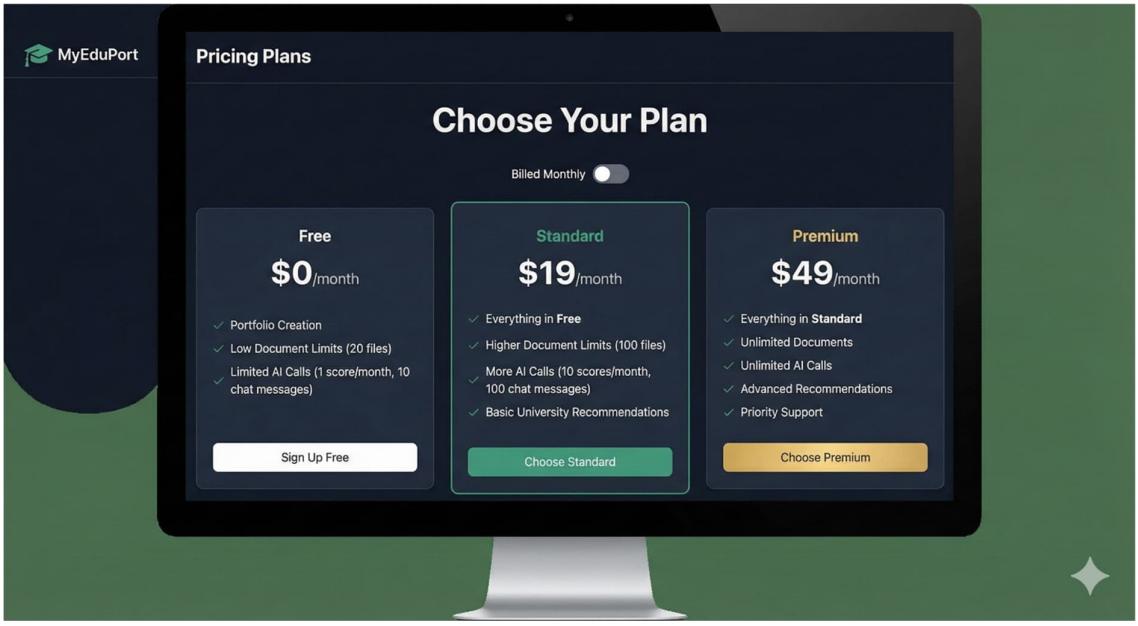

8. AI Essay Editor

This image demonstrates the AI-powered essay editor. Students can write their personal statements or essays within the platform, and the AI provides real-time feedback on grammar, style, clarity, and structure, suggesting improvements to strengthen their writing.

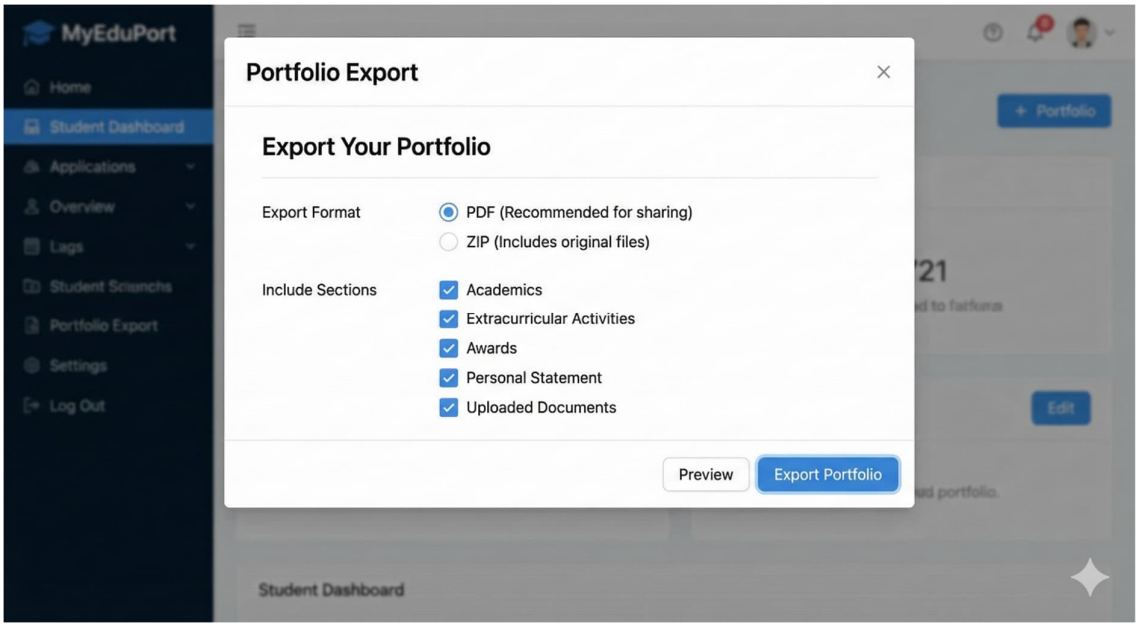

9. Pricing Plan

This screen presents the freemium pricing model of MyEduPort. It clearly displays the "Free" plan alongside paid tiers ("Standard" and "Premium"). Each plan lists its specific feature limits, such as document storage and the number of AI calls allowed, as outlined in the project's payment integration plan.

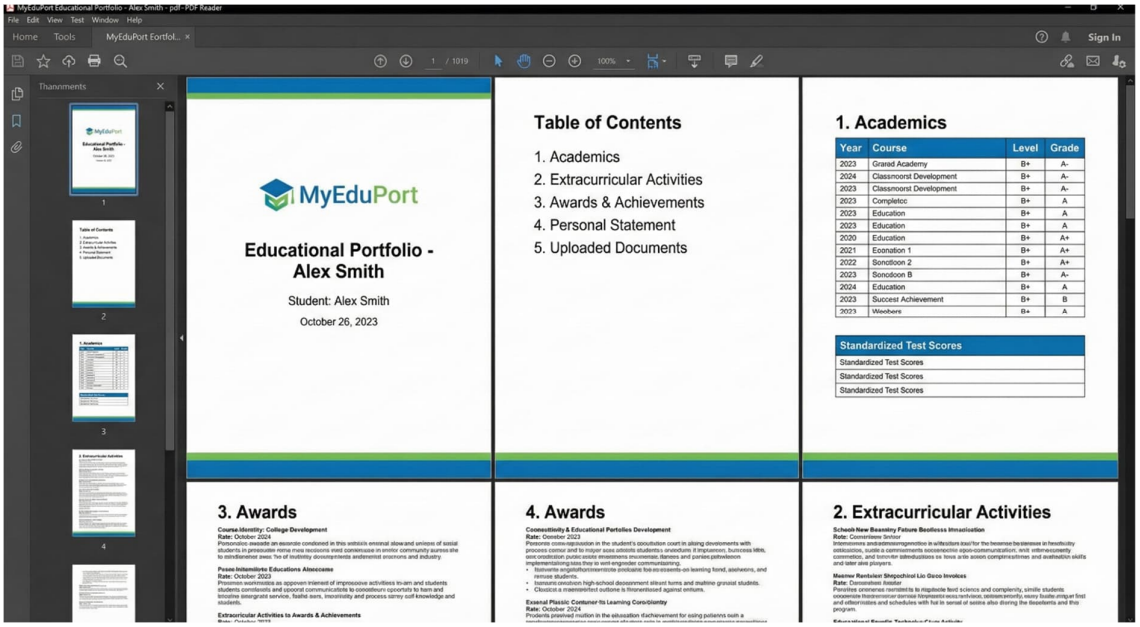

10. Portfolio Exporting

This image shows a modal window that allows students to export their complete educational portfolio. Users can choose the export format (e.g., PDF or ZIP) and select which sections to include, such as academics, extracurriculars, and uploaded documents, enabling them to share their portfolio with counselors or universities.

11. Sample of exported portfolio
